# Vocabulary - Monitoring Change

**Time-lapse**

a way of filming something in which many photographs are taken over a period of time and are shown quickly in a series so that a slow action appears to happen quickly.

**Monitoring:**

to observe, record, or detect with tools.

**Migratory:**

moving from one place to another at different times of the year.

**Watershed:**

the area of land that includes a particular river and all the rivers and streams that flow into it.

**Stationary:**

not moving : staying in one place or position.

**Convergence:**

moving toward a single point.

**DIY:**

Do It Yourself.

**Perspective:**

the appearance to the eye of objects in respect to their relative distance and positions.

**Composition:**

the way in which something is put together or arranged.

**Interval:**

a period of time between events.
